

COMPREHENSIVE RECOGNITION DISPLAYS

Donor Recognition - Naming Opportunity - Special Recognition

DONOR DISPLAY

Summa Healthcare Foundation, Akron, OH

This major hospital completed a capital campaign that required numerous forms of recognition. The need of flexibility for the overall donor display was accomplished through the use of vinyl decals adhered to glass. This approach was the solution for last minute updates as well as a confirmation of their donor list. At a designated time, the glass panels were permanently abrasively etched. The use of glass and brushed silver finish enhanced the architectural and water fountain elements of the facility.

SPECIAL RECOGNITION

Major contributors were recognized with a portrait and biographical information – and in some settings a quotation selected by the donor was utilized within the display.

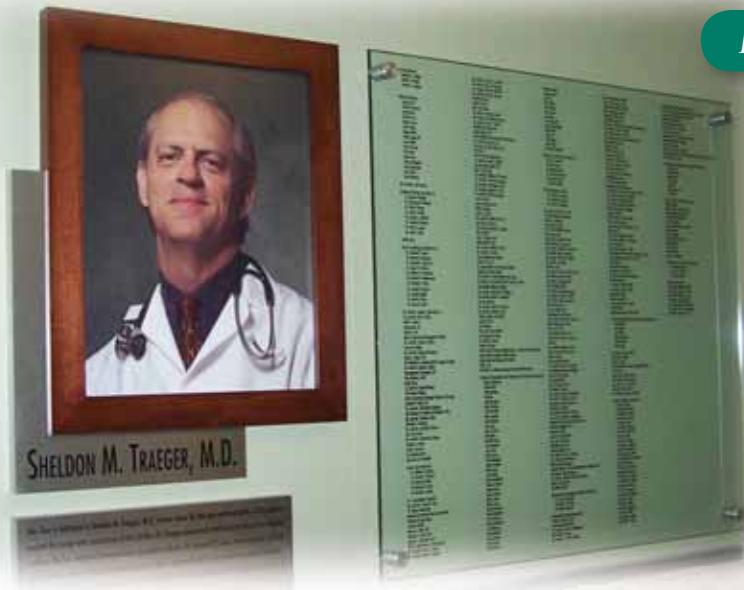

GROUPED NAMING OPPORTUNITY DISPLAY

- To eliminate clutter on the walls to further enhance the calm environment, a single updateable display was the solution.
- Our Mondrian system allows for ease of adding new naming opportunities.
- Positioned in the family waiting area – the donor's generosity was highly visible and maintained attention to patient privacy.

1157 designconcepts provides innovative and custom solutions for all types of recognition projects such as donor recognition, halls of fame, history and more. With a focus on nonprofit institutions and a history of nearly 60 years, the company has completed numerous projects for universities and colleges throughout North America.

COMPREHENSIVE RECOGNITION DISPLAYS

Donor Recognition - Naming Opportunity Displays - Special Recognition
